

UNIVERSIDADE DE ÉVORA

- Internet Access Guide-

All users who have access to the **Eduroam** wireless network should preferably use this network.

If you do not have access to Eduroam network, to access the Internet via wireless you should connect to the network **FWUE**.

The FWUE network is not visible so it has to be added manually. Follow the steps below.

Note: Both networks can be used at any location with wireless coverage in the University Campus.

Step 1 - Connect to Wireless Network FWUE

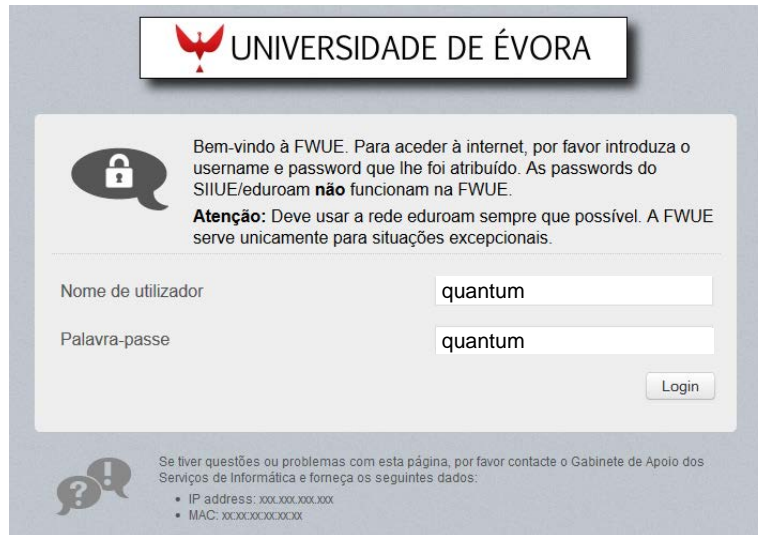

These instructions are transversal to any operating system (Linux, Windows, iOS, Android, etc) or device (laptop, tablet, smartphone, etc.).

- 1) Enable Wireless connection
- 2) Add manually Wireless Network or Network Profile
- 3) Configurations:
 - a. Network Name or SSID: **FWUE**
 - b. Security: **None** or **No Authentication (Open)**
 - c. Select: **Start this connection automatically**
 - d. Select: **Connect even if the network is not broadcasting**

Step 2 - Enable Internet Access

Once completed the FWUE network connection, you must open the Internet browser.

The first time you enter FWUE the Internet access is disabled. When trying to access any page will be redirected to the following page:

The screenshot shows a login page for the University of Évora (UNIVERSIDADE DE ÉVORA). At the top, there is a logo of a red phoenix and the text "UNIVERSIDADE DE ÉVORA". Below this, a message box with a padlock icon contains the following text: "Bem-vindo à FWUE. Para aceder à internet, por favor introduza o username e password que lhe foi atribuído. As passwords do SIUE/eduroam **não** funcionam na FWUE. **Atenção:** Deve usar a rede eduroam sempre que possível. A FWUE serve unicamente para situações excepcionais." Below the message, there are two input fields: "Nome de utilizador" with the value "quantum" and "Palavra-passe" with the value "quantum". A "Login" button is located to the right of the password field. At the bottom, there is a small icon of a question mark and exclamation mark, followed by the text: "Se tiver questões ou problemas com esta página, por favor contacte o Gabinete de Apoio dos Serviços de Informática e forneça os seguintes dados:" and a list of fields: "• IP address: xxx.xxx.xxx.xxx" and "• MAC: xxxxxxxxxxxx".

The access credentials are:

Username: quantum

Password: quantum

Note: This access will only be active during the event.

After entering the credentials a second screen appears. It is not strictly necessary to restart the browser, it is only a recommendation to ensure compability.

The screenshot shows a success message page for the University of Évora (UNIVERSIDADE DE ÉVORA). At the top, there is a logo of a red phoenix and the text "UNIVERSIDADE DE ÉVORA". Below this, a message box with a padlock icon contains the following text: "A partir de agora tem acesso à internet. Deve fechar o browser e voltar a abrir para começar a navegar."
